The procedures shall also provide for additional exemptions upon application under established campus procedures if: (a) immunization is contraindicated by a medical condition; (b) a student has had one immunization and agrees to have a second one no less than one month later; or (3) a student's beliefs preclude participation in an immunization program."

I am requesting to be exempt from the North Dakota State Board of Higher Education measles, mumps, and rubella immunization requirement because I adhere to a religious or philosophical doctrine whose teachings are opposed to such tests and immunizations. It is understood that if a measles, mumps or rubella outbreak should occur on campus I will be required to stay away from campus at my own expense until the outbreak is resolved and will not be allowed to attend on-campus classes or stay in campus housing for the duration of the outbreak. I also agree to keep my contact information current with the Student Health office while I am a student at Dickinson State University.
