

Disability Services Registration Form

DSU desires to create an accessible community where individuals with disabilities have an equal opportunity to pursue their educational goals, limited only by their abilities, not their disabilities.

Consistent with the Americans with Disabilities Act (ADA) and Section 504 of the Vocational Rehabilitation Act of 1973, individuals with disabilities are protected from discrimination and assured services and accommodations that provide equal access to the activities and programs of the university. To establish that an individual is covered under ADA, documentation must indicate that the disability substantially limits a major life activity. Major life activities include, but are not limited to: performing manual tasks, seeing, hearing, walking, standing, lifting, speaking, breathing, learning, and working. In general, the less apparent the disability, the more information is generally required to assess a student's needs and make reasonable accommodation decisions.

Disability Documentation Requirements:

- Documentation must indicate that the disability substantially limits a major life activity.
- Indicate whether the impact is current and stable or fluctuating (conditions that fluctuate over time may require more recent documentation and ongoing updates of documentation).
- Clearly and specifically demonstrate the need for all of the student's requested accommodations.
- Be provided by a licensed clinical professional familiar with the history and function limitations and impairments. The clinical professional should be someone other than a member of the student's family.
- Be submitted on official letterhead of the professional describing the disability or clinical professional may complete the DSU Office of Disability Services provided "Request for Documentation" form.
- Be dated, signed, include the name, title, professional credentials of the evaluator, and information about state licensing and/or certification.
- Students with multiple disabilities should identify all diagnosed disabilities. By doing so, the Office of Disability Services is best equipped to make the most appropriate accommodation recommendations.

DISCLAIMER: Documentation from a licensed clinical professional must be submitted to the Office of Disability Services in order for disability services professionals to effectively provide students with reasonable and appropriate accommodations. Please note, submitting third party documentation does not guarantee that specific accommodations/recommendations can or will be provided by DSU. No disability is the same, therefore, each case will be considered on an individual basis.
