

Train the Next Generation of Firefighters with DSU

Dear [contact name], I hope this letter finds you well. I'm excited to share an incredible opportunity for aspiring and current firefighters in our region! Dickinson State University offers a two-year Fire Science program designed to provide future firefighters with the essential skills and certifications needed for a successful career in the fire service.

REAL-WORLD TRAINING

Through our partnership with the Dickinson Fire Department, students gain hands-on experience, working alongside professional firefighters while completing their coursework. Upon graduation, students will be nationally certified, making them highly competitive candidates for fire service careers across the country.

PROGRAM HIGHLIGHTS

National Certifications

Graduates earn Firefighter I & II, Hazardous Materials Operations, and other key industry credentials.

Hands-On Experience

Train with the Dickinson Fire Department, responding to calls and participating in drills.

Career-Ready Education

Learn fire behavior, rescue techniques, emergency medical services, and leadership skills.

Affordable & Accessible

Competitive tuition with financial aid options, making it an excellent investment in the future of firefighting.

WHO CAN BENEFIT?

- Aspiring firefighters looking to start their careers.
- Current firefighters seeking additional training and national certification.
- Fire departments looking to strengthen their team with well-trained personnel.

LET'S CONNECT!

We believe strong partnerships with local fire departments are key to developing the next generation of highly skilled firefighters. If you know someone interested in this program or if your department would like to explore potential collaborations, I'd love to connect! I'd be happy to visit your department, speak with your team, or provide more information about how DSU can support your training and recruitment efforts. Thank you for your time and for all that you do to keep our communities safe. I look forward to working together to train the future of the fire service.
